

1 PACKAGE CONTENTS

2 PRODUCT OVERVIEW

3 INSTALLATION

1. Clean the area on the windshield where the Dash Cam will be installed, otherwise it may fall off easily in later.
 2. Gently push the Dash Cam into the bracket, which can be fixed by a magnet inside the bottom of the bracket.

3. Remove the protective film from the back of the bracket, attach the adhesive side of the mount on the windshield where it has an unobstructed view of the road but does not interfere with the driver's view. As shown below.

4. Use the installation tool to lift the edges of the windshield /molding and tuck in the power cable. Connect the Dash Cam to the car charger (plugged into cigarette lighter socket) and power cable.
